

**i think  
today is  
somebody's  
goblinsday.**

let's find out together.

# **goblinsnames**

take 2 dice. any 2 dice. roll them to make a number. that's the number of goblins in the goblinscave.

that's the number plus one. but don't worry about that for now.

now get some markers, some small paper, some big paper, & an empty table. we're going to draw.

every goblin has a name & also  
every goblin has a goblinsname.  
you remember what their names  
are. you already know them.

write all of the goblin's names &  
goblinsnames on small pieces  
of paper. these pieces of paper  
are goblins now. you can write  
up to four additional words on  
each goblin.

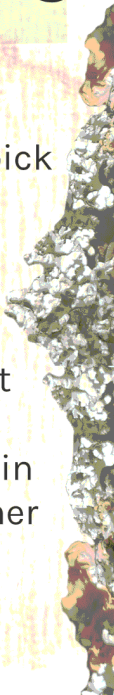

put all of your goblins on a big  
piece of paper. leave plenty of  
space between them.

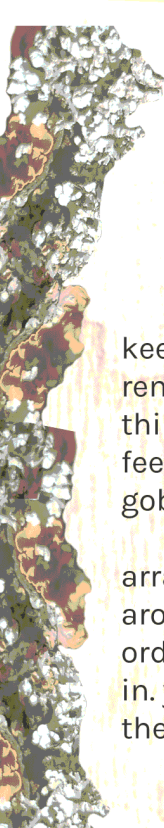

# **goblinsfeeling**

take some markers of different colors. any colors. goblinscolors. pick a color for each of the Important Emotions.

draw a colored line between 2 goblins. that line is a story about an emotion that that goblin has had about that other goblin.

keep drawing lines  
from that goblin,  
until you've drawn all  
of the emotions a  
goblin is capable of.  
then move onto the  
that other goblin.

keep going until you've  
remembered all of the  
things that goblins can  
feel, take all of the  
goblins off of the paper.

arrange the goblins  
around a table in the  
order that they would sit  
in. you remember what  
the order is.

**once all of the  
seated, find a**
